Prohibition case

*49 *Q.*—Sri A. A. RASHEED : Will the Hon. the Minister for Home be pleased to state—

(*a*) whether it is a fact that a Police Head Constable of Town Vellore South Police Station, North Arcot has been suspended for charge sheeting a wrong person in a prohibition case; and

(*b*) if so, the present stage of the investigation?

The Hon. Sri M. BHAKTAVATSALAM : (*a*) Yes, Sir,

(*b*) The real accused was sentenced under the Prohibition Act. The accused and the person impersonated were charged under the Indian Penal Code and the person impersonated was sentenced. The Head Constable who was suspended has been reduced permanently as a Police Constable.

Sri A. A. RASHEED : Is it a fact that the complainant in a prohibition case was charge-sheeted and prosecuted?

The Hon. Sri M. BHAKTAVATSALAM : It is not correct to say that the complainant was charge-sheeted and prosecuted. There was impersonation. Some other person came and said that he was the person who was accused and he was convicted.

Vasectomy

*50 *Q.*—Sri A. A. RASHEED : Will the Hon. the Minister for Revenue be pleased to state whether the Government have instructed Doctors in the Hospitals to adopt reversible technique in Vasectomy?

The Hon. Sri M A. MANICKAVELU : No, Sir.

Sri A. A. RASHED : Is it a fact that in some Government hospitals this reversible technique in Vasectomy has been successfully tried and may I know why it has not been introduced as a general practice in other hospitals?

The Hon. Sri M. A. MANICKAVELU : The conditions under which the Vasectomy operation is performed are very comprehensive and there will be no necessity for any reversible techinque. I find that in Bombay one doctor has experimented this reversible technique and out of seven cases in five cases there was pregnancy.

Sri K. VINAYAKAM : May I know the details of this reversible technique in Vasectomy?

The Hon. Sri M. A. MANICKAVELU : Well, if the hon. Member comes to my room, I shall give details as far as I know.

Sri A. A. RASHED : Will not this reversible technique help those parents who lose their children after undergoing this Vasectomy operation?

21st January 1961]

THE HON. SRI M. A. MANICKAVELU : As I said, it is not necessary. Only in the case of persons who have three children the Vasectomy operation is done. But there are cases where persons have lost more children and we cannot provide for all that.

Aid from World Health Organization

*51 *Q.*—SRI K. SATTANATHA KARAYALAR : Will the Hon. the Minister for Revenue be pleased to state the nature of help the Government have received from World Health Organization and United Nations International Children Emergency Fund for the Improvement of Public Health?

THE HON. SRI M. A. MANICKAVELU : A statement [a] is placed on the table of the House.

SRI K. SATTANATHA KARAYALAR : May I know the reasons for stopping the distribution of milk powder that has been received under this scheme?

THE HON. SRI M. A. MANICKAVELU : No. It would have been stopped if the stock had been exhausted. Otherwise, whatever is being received, is distributed to Maternity and Child Welfare Centres.

SRI K. SATTANATHA KARAYALAR : May I know whether it is a fact that the distribution of milk powder has not been properly done and the concerned Government Department is enquiring into it.

THE HON. SRI M. A. MANICKAVELU : I have no information about it.
